CURRICULUM VITAE

SUMMARY OF CV

Research and Teaching Statement

I am a broadly trained evolutionary biologist studying genome-environment associations in plants and animals. I have published my award-winning research in leading journals, have extensive experience with teaching and mentoring, and a demonstrated track record of implementing EDI building approaches into my research and teaching activities.

Summary of Excellence in Research and Teaching

- 21 manuscripts published in peer-reviewed journals, 5 in review
- $350,000 in external fellowship and award funding
- 8 invited talks and seminars, 3 best talk awards
- 3 Course Instructor roles (4.5/5 course rating), 2 undergraduate research projects supervised

ACADEMIC HISTORY

Research Appointments

Weston Family Fellow in Northern Research 2026-2028
University of Manitoba, Polar Bears International

NSERC Postdoctoral Research Fellow 2022-2026
University of Manitoba, Polar Bears International, San Diego Zoo Wildlife Alliance

Data Scientist (Contractual) 2023
Environment and Climate Change Canada

Postdoctoral Researcher 2021-2022
Polar Bears International and San Diego Zoo Wildlife Alliance

Career Interruptions

Parental leave (1 year) 2025-2026
Parental leave (1 year) 2022-2023

Education

Ph.D. Ecology and Evolutionary Biology 2015-2021
University of Toronto
Thesis: The effects of urbanization on the ecology and evolution of species interactions
Supervisor: Marc Johnson

Hon. B.Sc. Wildlife Biology-Statistics 2010-2015
University Guelph
